

# Editorial Contact Team

If you are writing an article about the manufacturing and remanufacturing of engine parts, including:

- The differences between new, remanufactured and reclaimed engine parts
- The challenges faced by today's engine and transmission builders
- The latest trends in stock replacement and performance cylinder heads
- The benefits of remanufacturing and its effect on the environment
- How to effectively manage a motorsports marketing program

## Contact EngineQuest (EQ), a division of AAEQ Manufacturers and Recyclers

For media support contact Kerri Petersen at The Marx Group, [kpetersen@themarxgrp.com](mailto:kpetersen@themarxgrp.com), 415.453.0844 x118

EngineQuest (EQ) is the engine parts division of AAEQ Manufacturers and Recyclers. EQ's product line includes new, remanufactured and reclaimed engine parts. EQ sources its cores from its sister company, AA Midwest, which maintains a huge core inventory of over 150,000 engines, transmissions and internal parts cores. EQ specializes in manufacturing parts that either make one automotive core work in another application or replace a hard-to-find or hard-to-salvage part.

EQ continues to offer new products to help the engine builder solve their manufacturing challenges, including exhaust manifolds (new and reclaimed), timing covers (largest single line available), harmonic balancers, head bolt sets, crankshafts, stock replacement and performance cylinder heads.

When it comes to grass roots racing through the International Motor Contest Association (IMCA), EngineQuest (EQ) cylinder heads consistently help drivers find the winner's circle. EQ cylinder heads feature the company's 23 degree small block Chevy performance heads with Flow-Cast Technology that do not require any additional machining, porting or polishing. EQ cylinder heads are ready to go right out of the box. It is as simple as installing the valve train and bolting it on.

EQ can supply you with the expertise you are looking for when writing articles. Just call or write Scott or Jason below to provide a quote for your article, or just to offer a "state-of-the-industry" viewpoint.

**Scott Stolberg - President & CEO**  
800.426.8771 ext. 202 - [sjs@aaeq.net](mailto:sjs@aaeq.net)

- 24 years of experience in the automotive remanufacturing, manufacturing and recycling industries
- Expertise in sales, marketing and warehouse operations
- A member of many automotive and recycling associations, including Automotive Recyclers Association (ARA), Institute of Scrap Recycling Industries (ISRI), Automotive Engine Builders Association (AERA), Production Engine Remanufacturers Association (PERA), Automatic Transmission Rebuilders Association (ATRA), Automotive Aftermarket Industry Association (AAIA) and Specialty Equipment Market Association (SEMA)
- B.S. degree in Finance from Indiana University

**Jason Bishop - Marketing and Customer Service Manager**  
800.426.8771 ext. 213 - [jason@aaeq.net](mailto:jason@aaeq.net)

- Expertise in customer service, sales, marketing and finance
- 9 years of experience with Wells Fargo Home Mortgage/Financial, Countrywide Home Loans and ITT Industries
- B.S. degree in Economics from the University of Iowa
