## **News Release**

### **FOR IMMEDIATE RELEASE**

### **June 18, 2008**

#### **EQ OFFERS NEW FORD EXHAUST MANIFOLDS**

Replaces original part for 1987 to 1998 460cc Ford electronic fuel injected engine

(LAS VEGAS, NV) – EngineQuest® (EQ) offers a new line of replacement Exhaust Manifolds for the 1987 to 1998 Ford 460cc/7.5L electronic fuel injected engine. EQ's Ford Exhaust Manifolds (EQ Part #EN 1698 & EN 1699) replace the original Ford part which was made with high nickel content and commonly cracked because of the intense heat generated. EQ's Exhaust Manifolds are made from ductile iron, and are casted at extremely high heat. These manifolds are engineered to not crack in the high heat generated by the exhaust and are priced at a cost that is a fraction of the price of the original OEM part. For more information about EQ Ford Exhaust Manifolds, contact 800-426-8771, or visit [www.eqcylinderheads.com](http://www.eqcylinderheads.com).

#### **About EngineQuest (EQ)**

EngineQuest (EQ) is the engine parts division of AAEQ Manufacturers and Recyclers. EQ's product line includes new, remanufactured and reclaimed engine parts. EQ sources its cores from its sister company, AA Midwest, which maintains a huge inventory of over 150,000 engines, transmissions and internal parts cores. EQ specializes in manufacturing parts that either make one automotive core work in another application or replace a hard to find or hard to salvage part.

EQ continues to offer new products to help the engine builder solve their manufacturing challenges, including: exhaust manifolds (new and reclaimed), timing covers (largest single line available), harmonic balancers, head bolt sets, crankshafts, stock replacement and performance cylinder heads. EQ parts are available from six national warehouses located in Chicago, Ill.; Las Vegas, Nev.; Spokane, Wash.; Long Island, N.Y.; Atlanta, Ga. and Dallas, Texas.

#### **About AAEQ Manufacturers and Recyclers**

AAEQ Manufacturers and Recyclers is a comprehensive company that provides leadership in the automotive parts remanufacturing, manufacturing and recycling industries under its AA Midwest and EngineQuest (EQ) divisions. With locations in Chicago and Las Vegas, AAEQ has been family owned and operated since 1949 and continues to be known for its outstanding customer service and high degree of integrity. The company also operates an auto recycling facility in Blue Island, Ill. For more information, visit [www.aaeq.net](http://www.aaeq.net).
